## CFP 2023 Survey - Manufacturing Module Scoring Rubric

Manufacturing Maximum Questions **Operations** points M3.1 Does your company advocate externally for proactive chemicals management that includes: increasing the transparency of chemical ingredients in manufacturing operations and supply chains, restricting chemicals of concern based on their inherent hazards including classes of chemicals of concern such as per- and polyfluoroalkyl substances (PFAS), and promoting inherently safer alternatives (select one)? a. Our company advocates externally to promote the actions listed in Question M3.2. If you selected this option, proceed to Question M3.2. b. Our company does not advocate externally to promote the actions listed in Question M3.2. If you n/a selected this option, proceed to Question M4. M3.2 Our company (select all that apply): a. Collaborates with non-governmental organizations (NGOs) that advance inherently safer alternatives to 1.00 chemicals of concern. b. Advocates for safer chemicals/materials in government legislation or regulation, either directly or is a member of a trade association that advocates for increasing chemical ingredients transparency in manufacturing operations and supply chains, restricting chemicals of concern based on inherent hazards, 1.00 or promoting inherently safer alternatives. Advocacy includes submitting written comments, making oral comments, or testifying to elected bodies or regulatory agencies. c. Supports safer chemicals/materials management in standards, certifications, eco-labels, or NGO-led pledges, either directly or as a member of a trade association that advocates for increasing chemical ingredient transparency in manufacturing operations and supply chains, restricting chemicals of concern 1.00 based on inherent hazards, or requiring inherently safer alternatives. Support includes written and verbal comments to standard setting bodies. d. Presents publicly, states on our website, or publishes documents that support hazard-based frameworks for increasing chemical ingredient transparency in manufacturing operations and supply 1.00 chains, restricting chemicals of concern based on inherent hazards, or requiring inherently safer alternatives. 4.00 **M3 Maximum Points** 4.00 Question M4: Accountability (4 points) M4.1 What means of accountability does your company have in place to ensure the implementation of your chemicals policy (M1) and/or footprint reduction goal(s) (F1) (select one)? a. Our company has means of accountability listed in Question M4.2 to ensure implementation of our n/a chemicals policy and/or footprint reduction goals. If you selected this option, proceed to Question M4.2. b. Our company does not have means of accountability listed in Question M4.2 to ensure implementation of our chemicals policy and/or footprint reduction goals. If you selected this option, proceed to Question n/a M4.2 Our company (select all that apply): a. Delineates chemicals management responsibilities in job descriptions and individual annual 1.00 performance metrics. b. Assigns member(s) of senior management responsibility for meeting chemical policy goals and 1.00 objectives. c. Has financial incentives for senior management to meet corporate sustainability goals. These goals 1.00 include reducing the use of some or all chemicals of high concern. d. Has Board level engagement in the implementation of our chemicals policy. 1.00

Questions	Manufacturing Operations	Maximum points
Chemical Inventory Pillar (30 points)		
Question I1: Manufacturing Restricted Substances List (MRSL) (5 points)		
I1.1 What is the scope of chemicals of concern restricted in manufacturing operations (select one)?		
a. Our company has developed a list of chemicals of concern. If you selected this option, proceed to	n/a	
Question I1.2.	., .	
b. Our company has not developed a list of chemicals of concern. If you selected this option, proceed to Question 13.	n/a	
I1.2 Our company (select all that apply):		
a. Uses an MRSL to manage legal compliance within each jurisdiction with manufacturing operations. Our		
MRSL includes only chemicals that are legally restricted in each market.	0.00	
b. Uses a single MRSL that reflects the strictest regulation in all of the countries or markets in which the	2.00	
company has manufacturing operations.		
c. Uses a single MRSL that reflects the strictest regulation in all locations worldwide.	3.00	
d. Uses a single MRSL that includes voluntary limits or bans of chemicals beyond what is covered in the most restrictive global regulations, or it includes chemicals that may not be subject to regulation but	5.00	
which the company has voluntarily chosen to limit or ban.	5.00	
e. Uses a list of chemicals identified for reduction beyond regulatory requirements. Our company may or		
may not require suppliers to eliminate all of these chemicals in the products they supply to us for	3.00	
manufacturing operations.		
I1 Maximum Points	5.00	5.00
Question I2: MRSL Compliance (5 points)		
I2.1 What actions does your company take to ensure that its requirements regarding the MRSL are curren (respond only if you selected Option a for Question I1.1)?	it and implemented	effectively
a. Our company takes action listed in Question I2.2 to ensure that its requirements are current and	n/a	
implemented effectively. If you selected this option, proceed to Question I2.2.	11/ a	
b. Our company does not take actions listed in Question I2.2 to ensure that requirements regarding our		
list of chemicals of high concern are current and implemented effectively. If you selected this option,	n/a	
proceed to Question I3.		
12.2 Our company (select all that apply):	4.25	
<ul><li>a. Delineates compliance requirements in contracts with suppliers.</li><li>b. Trains suppliers about how to comply with our requirements.</li></ul>	1.25 1.25	
c. Updates our MRSL and/or other requirements on an annual basis (or more frequently).	1.25	
d. Publicly discloses our MRSL and/or other requirements.	1.25	
I2 Maximum Points	5.00	5.00
12 Waxiiiuiii r Oiitts	3.00	3.00
Question I3: Data Collection (5 points)		
13.1 What chemical information does your company, either directly or through a third-party, collect from	suppliers for produ	rts used in
manufacturing operations (select one)?	suppliers for produ	uscu III
a. Our company collects chemical ingredient information listed in I3.2 from suppliers. If you selected this		
option, proceed to Question 13.2.	n/a	
b. Our company does not collect chemical ingredient information listed in I3.2 from suppliers. If you		
selected this option, proceed to Question I5.	n/a	
I3.2 Our company (select one):		
a. Requires suppliers of process chemicals to confirm that they comply with our MRSL.	1.00	
b. Requires suppliers of process chemicals to confirm that they comply with our MRSL and to provide		
information on chemicals on our Watch List, which includes at least 10 chemicals or one class of	2.00	
chemicals such as PFAS.		
c. Requests that suppliers of process chemicals provide full chemical ingredient information.	3.00	
d. Requires that suppliers of process chemicals provide full chemical ingredient information.	5.00

### Question I6: Supplier Conformance (5 points)

I6.1 How does your company ensure conformance with your chemical management requirements for manufacturing operations (select one)?

a. Our company ensures conformance with chemical management requirements for manufacturing	n/a
operations through methods listed in Question I6.2. If you selected this option, proceed to Question I6.2.	11/ a

b. Our company does not ensure conformance with chemical management requirements for manufacturing operations through methods listed in Question I6.2. If you selected this option, proceed to Ouestion F1.

### 16.2 Our company (select all that apply):

Chemical Inventory Pillar Maximum Points		30.00
16 Maximum points	5.00	5.00
d. Routinely tests products to assure conformance with reporting requirements.	1.25	
c. Trains suppliers on how to comply with reporting requirements.	1.25	
b. Requires suppliers to test products in third party approved labs and provide results.	1.25	
a. Has an audit program to verify supplier submitted data.	1.25	

Manufacturing **Maximum** Questions **Operations** points Footprint Measurement Pillar (33 points) Question F1: Footprint Reduction Goal (6 points) F1.1 Has your company set goals for reducing chemicals of high concern (CoHCs) and/or chemical classes in manufacturing operations and measured progress toward these goals (select one)? a. Yes, our company has a goal to reduce CoHCs or chemical classes. If you selected this option, proceed n/a to Question F1.2. b. No, our company does not have a goal to reduce CoHCs or chemical classes. If you selected this option, n/a proceed to Question F2. F1.2 Our company (select all that apply from Options "a-f" or Option "g"): a. Has set a goal for reducing CoHCs by count or mass. 1.00 1.00 b. Has set a goal to eliminate one or more chemicals classes of concern. c. Has set a goal to reduce its chemical footprint. 3.00 d. Publicly discloses the goal, which at a minimum includes percentage reduction and time period. 1.00 e. Publicly discloses specific CoHCs included in the goal. 1.00 f. Publicly reports annually on progress towards meeting the goal. 1.00 g. Has no CoHCs on the CFP CoHCs Reference List in our manufacturing operations and publicly discloses 6.00 this information. **F1 Maximum Points** 6.00 6.00 Question F2: Footprint Measurement (8 points) F2.1 How does your company measure its baseline chemical footprint for manufacturing operations (select one)? a. Our company has calculated its chemical footprint. If you selected this option, proceed to Question n/a F2.2. b. Our company is unable to calculate its chemical footprint at this time. If you select this option, proceed n/a to Question F4. F2.2 Our company (select one and provide narrative of how you calculate your footprint and the time period covered): a. Has calculated its chemical footprint by mass using the CFP CoHCs Reference List. If yes, answer 8.00 Question F2.3. b. Has calculated its chemical footprint by count using the CFP CoHCs Reference List. If yes, answer 4.00 Question F2.4. c. Has calculated its chemical footprint by mass using the EU REACH Candidate List of SVHCs. If yes, 4.00 answer Question F2.3. d. Has calculated its chemical footprint by count using the EU REACH Candidate List of SVHCs. If yes, 2.00 answer Question F2.4. e. Has no intentionally added CoHCs, using the CFP CoHCs Reference List, in manufacturing operations. 8.00 F2.3 Our company's chemical footprint of manufacturing operations in kilograms is (required response if you selected Option "a" or "c" for Question F2.2): Enter footprint of manufacturing operations in kilograms below: n/a F2.4 Our company's chemical footprint of manufacturing operations by count is (required response if you selected Option "b" or "d" for Question F2.2): Enter footprint by number of CoHCs in your manufacturing operations below: n/a **F2 Maximum Points** 8.00 8.00

## CFP 2023 Survey - Manufacturing Module Scoring Rubric

Questions	Manufacturing Operations	Maximum points
Question F3: Footprint Change (10 points)		
F3.1 Over the most recent one or two years for which you have data, how much have CoHCs in manufactu (select one)?	ring operations ch	anged
a. Our company has calculated the change in intentionally added CoHCs. If you selected this option, proceed to Question F3.2.	n/a	
b. Our company is unable to answer this Question at this time. If you selected this option, proceed to Question F4.	n/a	
F3.2 Our company (select one):		
a. Has calculated the change in its chemical footprint by mass using the CFP CoHCs Reference List. If yes, answer Question F3.3.	8.00	l
b. Has calculated the change in its chemical footprint by count using the CFP CoHCs Reference List. If yes, answer Question F3.4.	4.00	)
c. Has calculated the change in its chemical footprint by mass using the EU REACH Candidate List of SVHCs. If yes, answer Question F3.3.	4.00	)
d. Has calculated the change in its chemical footprint by count using the EU REACH Candidate List of SVHCs. If yes, answer Question F3.4.	2.00	)
e. Is unable to calculate its baseline chemical footprint for beginning of reporting period. However, it is able to calculate the change in the number and/or mass of intentionally added CoHCs over the reporting period. If yes, answer Question F3.5.	1.00	1
f. Had no CoHCs using the CFP CoHCs Reference List in manufacturing operations for the reporting period.	10.00	)
F3.3 Our company's change in chemical footprint in manufacturing operations in kilograms is (required res "a" or "c" for Question F3.2):	ponse if you selec	ted Option
Enter your change in chemical footprint in kilograms below.		
*Note: an additional two points are awarded to companies that calculated their chemical footprint according reported a reduction in their footprint by mass using the CFP CoHCs Reference List.	2.00* ng to Option F3.2d	
F3.4 Our company's change in chemical footprint in manufacturing operations by count is (required responder "d" for Question F3.2):	nse if you selected	Option "b"
Enter your change in chemical footprint by number of chemicals below.		
	n/a	
F3.5 Our company's change in the number and/or mass of intentionally added CoHCs in manufacturing oping if you selected Option "e" for Question F3.2):	erations is (require	ed response
Enter your change in CoHCs by number and/or kilograms below.	n/a	
F3 Maximum Points	10.00	10.00
Question F4: Hazard Assessment (3 points) F4.1 How does your company assess the hazards of chemicals used in its manufacturing operations and for	r what percent of	
manufacturing operations has your company assessed these hazards? Our company (select one):  a. Assesses the hazards of chemicals used in our manufacturing operations. If you selected this option, proceed to Question F4.2.	n/a	
b. Does not assess the hazards of chemicals in our manufacturing operations beyond regulatory requirements. If you selected this option, proceed to Question F5.	n/a	
F4.2 Our company (select all that apply):		
a. Uses a system or tool, internal or third party, to evaluate chemical hazards. Identify the system or tool in attached documentation.	n/a	
b. Asks suppliers to provide their evaluations of chemical hazards in the products they sell to us.	n/a	
F4.3 Our company assessed the hazards for the following percent of our manufacturing operations (requir Option "a" or "b" for Question F4.2):	ed response if you	selected
Indicate percent of manufacturing operations screened for hazard.		
	% * 3

3.00

Questions	Manufacturing Operations	Maximum points
Question F5: Safer Alternatives (6 points)		
F5.1 How does your company encourage the use of safer alternatives to chemicals of high concern in manu company (select one):	ufacturing operation	ons ? Our
a. Uses methods listed in Question F5.2 to encourage the use of safer alternatives to CoHCs. If you selected this option, proceed to Question F5.2.	n/a	
b. Does not use any of the methods listed in Question F5.2 to encourage the use of safer alternatives to CoHCs. If you selected this option, proceed to Question D1.	n/a	
F5.2 Our company (select all that apply for Options "a-f" or only Option "g"):		
a. Has a definition and criteria for a "safer alternative" that is consistent with the CFP definition, and we include such criteria in our business processes.	1.00	
b. Communicates our criteria for safer alternatives to suppliers and asks suppliers to use our criteria when evaluating alternatives to CoHCs.	1.00	
c. Rewards suppliers that use safer alternatives.	1.00	
d. Has integrated criteria for safer alternatives into our manufacturing requirements.	1.00	
e. Has established a goal and is tracking progress to improve the profile of chemicals across our manufacturing operations, consistent with our company's criteria for a safer alternative.	1.00	
f. Publicly discloses our company's definition for a "safer alternative" and our approach to integrating it into our business practices.	1.00	
g. Our manufacturing operations do not have CoHCs on the CFP CoHCs Reference List and we publicly		
disclose how we evaluate the chemical safety of products used in manufacturing operations using a	6.00	
hazard-based framework. Describe in documentation how your company ensures that the safest	0.00	
chemicals available are used.	c 00	C 00
F5 Maximum Points	6.00
