Assessment Question	Response
F3. Over the past two years how much have intentionally added CoHCs in your products changed? Our company's	
a. count of intentionally added CoHCs/SVHCs in products: FY 2016 minus FY 2015 =CoHCs/SVHCs by count and/or	
b. mass of intentionally added CoHCs in products: FY 2016 minus FY 2015 = CoHCs/SVHCs by mass (kg), or	
c. products did not contain intentionally added CoHCs for FY 2015 and FY 2016, or	
d. is unable to answer this question at this time	x
Enter the count of intentionally added CoHCs/SVHCs in products: FY 2015 minus FY 2014 = CoHCs/SVHCs by count	
Enter the mass of intentionally added CoHCs/SVHCs in products: FY 2014 minus FY 2013 = CoHCs/SVHCs by mass (kg)	
Please indicate which reference list you are using:	
F4. How does your company assess the hazards of chemicals in its products beyond regulatoryrequirements? Our company:	
a. uses a system or tool, internal or third party, to evaluate chemical hazards. Identify the system or tool below	x
b. asks suppliers to provide their evaluations of chemical hazards in the products they sell to us	
c. does not currently assess the hazards of chemicals in its products beyond regulatory requirements	
	Seagate's Compliance
	Assurance System (CAS2) for
	supplier Full Material Disclosure
	based on the IPC1752 data
If the third parties, who are properties to	
If "a," identify the system or tool:	standard.
F5. How does your company encourage the use of safer alternatives to CoHCs? Check all that apply in "a–f" or answer only "g" or	
"h." Our company:	
a. has developed a definition for a safer alternative that is consistent with the CFP definition, and we include such criteria in our	
business processes	Х
b. communicates about and asks suppliers to use our company's criteria for a safer alternative	X
c. rewards suppliers that use safer alternatives	X
d. has integrated our company's criteria for a safer alternative into our product development process (e.g., through our design and	
safety processes)	x
e. has established a goal and is tracking progress to improve the profile of chemicals across our products, consistent with our	
company's criteria for a safer alternative	x
f. publicly discloses our company's definition for a safer alternative and our approach to integrating it into our business practices OR	
g, does not have CoHCs in its products and consistently seeks to avoid any chemical of concern OR	
h. none of the above	
Public Disclosure and Verification	
D1a. What information does your company disclose about the chemical ingredients in its products? D1a: For formulated products,	
our company publicly discloses:	
Company passes,	
i. chemical identity beyond legal requirements for some percentage of sales at the SKU level (indicate percentage below)	
ii. all intentionally added chemicals including fragrances, flavors, and preservatives in products for some percentage of sales at the	
SKU level (indicate percentage below)	
iii. We do not publicly disclose information about chemical ingredients in our formulated products beyond legal requirements	
Life and the Company of the state of the sta	
i. (for products) Percentage of sales at the SKU level for which chemical identity beyond legal requirements is disclosed	
ii. (for products) Percentage of sales at the SKU level for which chemical identity of all intentionally added chemicals including	
fragrances, flavors, and preservatives in products is disclosed	
D1b. For articles, our company publicly discloses:	
i. generic material content for 95% by mass of chemicals in products for some percentage of sales or spend at the SKU level (indicate	
percentage below)	
ii. chemical identity for 95% by mass of chemicals in products for some percentage of sales or spend (indicate percentage below)	x
iii. We do not publicly disclose information about chemical ingredients in our articles beyond legal requirements	
i. (for articles) Percent of sales or spend at the SKU level for which, at a minimum, chemicals on the EU's Candidate List of SVHCs in	
products are disclosed	
ii. (for articles) Percentage of sales or spend at the SKU level for which chemical identity for 95% by mass of chemicals in products is	
disclosed	<10%
D2. Does your company agree to publicly disclose its responses to the CFP 2017 Survey?	
	Yes
D3. Does your company agree to publicly disclose its score on the CFP website?	
, , , , , , , , , , , , , , , , , ,	Yes
